TORLYS exclusive smartSTEP Moulding | Euro Square Profile**

TORLYS laminates offer a unique smartSTEP moulding solution to add the perfect finishing touch to your installation. The smartSTEP is made from a full plank of flooring for a perfect colour, texture & dimension match. It also uses the same Uniclic® joint as the matching floor for an easy installation. A specially engineered metal plate can be used in conjunction with the smartSTEP to allow for a floating installation on landings.
