

# TORLYS Laminate Pier 7

# **PART 1 – MATERIALS**

- .1 Direct Pressure Laminate Flooring that meets or exceeds Class 32 under EN13329
- .2 TORLYS Pier 7 Laminate Flooring shall be:
  - .1 Size: 47-1/4" x 7-1/2" (nominal) 1200 mm x 190 mm
  - .2 *Total Thickness*: 9/32" (nominal) 7 mm
  - .3 *Edge Type:* Square
  - .4 Type of Finishing: Aluminum Oxide
  - .5 Type of Decorative Wear Layer: Melamine Impregnated
  - .6 Type of Core: High Density Fibreboard  $> 800 \text{ kg per m}^3$
  - .7 *Type of Backing:* Melamine
  - .8 Assembly System: Uniclic<sup>®</sup> Glueless
  - .9 *Colours:* As selected by the architect
  - .10 Type of Installation: Floating
- .3 Accessories:
  - .1 TORLYS Laminate Mouldings, as recommended by the Manufacturer
  - .2 Colours: As selected by the Architect

# PART 2 – PACKAGING INFORMATION

- .1 Pieces per carton: 10
- .2 Square metres/Square feet per carton: 2.28 m<sup>2</sup> / 24.54 sq. ft.
- .3 Weight per carton: 13.61 kg / 30 lbs.

#### **PART 3 – EXECUTION**

- 3.1 <u>Site Verification of Conditions and Preparation:</u>
  - .1 Ensure sub-floors are clean, firm, flat (within 4.8 mm in 3 m or 3/16" in 10'), dry (less than 3% moisture on concrete, 10% or less on plywood) and smooth. TORLYS Pier 7 Laminates can be installed above, on or below grade, over any solid and stable sub-floor including plywood, chipboard, old non-creaking flooring boards, hardwood flooring, concrete slabs, PVC and most ceramic tile (except heavily embossed tile).
  - .2 Remove all existing carpet, baseboards, quarter-rounds and thresholds. Undercut door jams using a piece of flooring material as guide.

- .3 Repair all defects in sub-floor.
- .4 Ensure all doors can still open and close after installing the floor (minimum 1 cm [3/8"] clearance). The doorframes may need to be adapted.
- .5 Make sure all doors and windows are in place and that the room where TORLYS Pier 7 material is to be installed is at an approximate temperature of 15° to 21°C (60° to 70° F).

# 3.2 Installation

- .1 Cover all the sub-floor with TORLYS Acoustik<sup>TM</sup>, TORLYS 3-in-1, TORLYS Safe&Sound or TORLYS Cork Underlayment, according to manufacturer's instructions. When using Cork Underlayment over concrete sub-floors, first cover the sub-floor with 0.15mm/6 mil underlayment grade poly, overlap edges by 30 cm (12"), damp-proof tape the joints and run poly up 10 cm (4") on each wall.
- .2 Install planks according to manufacturer's instructions. Expansion wedges must be used on walls to allow for proper expansion space (8 to 10 mm or 3/8"). Areas over 15 m (50') long or wide will require and expansion moulding.
- .3 Expansion space may be covered by a moulding, which is not fixed to the floor, but to the wall.
- .4 If a vapour barrier has been used, attach the baseboard through the plastic membrane sticking up from the floor, using finishing nails.

# 3.3 Cleaning

Clean the floor by sweeping or vacuuming, or use TORLYS Floor Cleaner.
