

Cleaner Floors

By **TORLYS**

A Cleaner Floor
Starts Here.

TORLYS

we make flooring better

TORLYS antimicrobial product protection helps keep the floor **99% cleaner** between cleanings, **24/7**.

Protect Your Flooring Investment.

Help extend the floor's lifetime with TORLYS antimicrobial technology.

Floors constantly accumulate bacteria as a result of human contact. Built-in antimicrobial technology is crucial in preventing harmful mold and bacteria growth that leads to property damage and expensive mold remediation.

Contribute to a cleaner space, add value, and offer added peace of mind by installing an antimicrobial floor by TORLYS.

Benefits

- Improves durability, extending the floor's lifetime
- Proven effective against a broad spectrum of stain, odor and illness-causing bacteria
- Active 24/7, for the lifetime of the floor
- Will not wash off, wear away or leach out of the floor

What Is Antimicrobial Technology?

Antimicrobial technology works to inhibit the growth of bacteria, mold, and mildew.

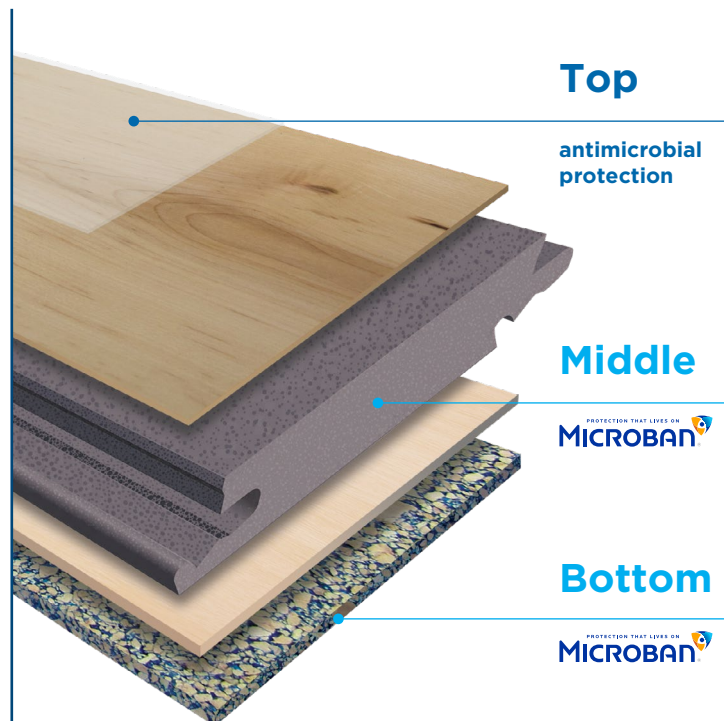

It is integrated during manufacturing to become part of the floor's molecular structure. Unlike disinfectants, it will never wash off or wear away, and will continue

to work 24/7 for the lifetime of the floor. TORLYS antimicrobial technologies have undergone extensive testing and have a long history of safe use.

Surface with Antimicrobial Product Protection

Visit torlys.com/cleanerfloors for more details.

TORLYS Maxx Finish™

Keeps floors 99% cleaner between cleanings

Did you know bacteria can double on surfaces every 20 minutes? Not with TORLYS Maxx Finish! Floors featuring this antimicrobial top coat are inherently cleaner and even easier to clean.

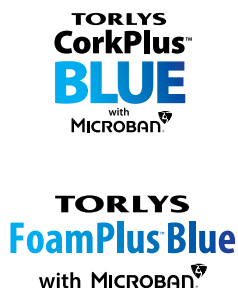

TORLYS™ Smart Core with Microban®

ensures the core remains protected from product degrading bacteria

While the middle of the floor will likely not be exposed, Microban® antimicrobial technology ensures the core remains protected even if bacteria were to reach it.

CorkPlus™ Blue & FoamPlus™ Blue Underlays with Microban®

Helps prevent mold and mildew growth under the floor

TORLYS attached underlays with Microban® antimicrobial technology give peace of mind by protecting the areas you can't see. These antimicrobial underlays make floors ideal for any room, even those where there is a risk of moisture.

Not all products include antimicrobial additives in each layer, visit torlys.com for specific product details.

TORLYS & Microban®

Since our inception, TORLYS has been committed to developing innovative flooring solutions that help contribute to a cleaner home. In 2012, TORLYS partnered with Microban®, the global leader in antimicrobial protective technology, to make our flooring even smarter.

Warranty

TORLYS guarantees the performance of antimicrobial treated floors. See our website for complete details.
